## WEDNESDAY

A Phoenix dispatch says—

A full state ticket was selected by representative republicans from fourteen counties who met here today.

Following is the ticket:

Senator, Lorenzo Hubbell; Congressmen, T L Leads, of Phoenix; Governor, Ralph Cameron, of Phoenix; Secretary of State, C G Cole, of Greenley; Auditor, R C Smith, of Navajo; Attorney General, Joseph E Morrison, of Phoenix; Mine Inspector, Dave Morgan, of Yavapai; Treasurer, E M Dickerman, of Tucson; Tax Commissioner, T E Campbell, of Prescott; R E Merritt, of Glendale and Roy N Davidson, of Phoenix; Supreme Court, Thomas Armstrong, of Phoenix; L L Henry, of Gila and E J Flannigan, of Cochise; Corporation Commission, M W Richardson, of Pinal; J C Reed, of Phoenix; M G Cassidy, of Bisbee and H V Clymer, of Yuma; School Superintendent, Miss Kate Christie, of Phoenix.

It was agreed to bring action of mandamus against the secretary of state to force a call for the election of three tax commissioners instead of two. A confident feeling of success was in evidence. Credentials of the conference were passed on by J C Gatti, of Clifton; J R Larson, of Graham county and C H Coleman, of Yuma. There was some talk of amalgamation but only five counties were represented by Progressives, so the matter was dropped.

## WEDNESDAY

New Paper Started in Bisbee

Vol. 1, No. 1, of the Bisbee Ore is on our exchange table. The Ore is a daily paper just started at Bisbee, and with such people as A. Valjean, A T Hoy and J T Clark as the publishers is bound to be a success. All three of the above named are newspaper people of high ability and in a live city like Bisbee they will no doubt make it a go. The paper is to be independent in politics, and will champion the cause of all that is right. It already carried considerable advertising, has full telegraphic reports, and presents a neat appearance. The Progressives welcome the new Bisbee enterprise success, and extend its fraternal hand and best wishes to the enterprising publishers for a long and successful career.

## Looking Backward Twenty-Four Years

### MONDAY

The Bisbee stage which came in last night by way of the San Diego Smelter, was obliged to wait over an hour before being able to cross the arroyo by the powder house.

Don't forget the dance at the City Hall tomorrow.

Wait & Tarbell received an order from Bisbee today for two caskets to be forwarded there. One for Mr. St. Yens whose body has been recovered and another for a woman whose name was not given.

Neither freight or ore trains left Tombstone today, owing to the condition of the roads.

Owing to the telegraph lines between Tombstone and Fairbank being down the Progression does not publish its usual dispatches today.

A terrible cloudburst swept over Bisbee yesterday and thousands of dollars damages was wrought by the flood.

The news of the sad disaster that has befallen Bisbee, cast a gloom over the entire City of Tombstone yesterday, as the two towns are closely connected by many ties.

The storm of yesterday afternoon was more severe than any that has visited this locality in many a year. One and ninety three hundred inches of rain fell in less than an hour which is more than has fallen in any one storm since the signal service record has been kept here.

Rumor hath it that Burt Alvord was married in Nogales on Saturday last to Joana Ernesta.

### TUESDAY

\$50,537 was the total raised made in the valuation of Cochise county property by the board of equalization.

The City Council held a special session this morning. Gov. Wolfley was present and explained the design and scope of the funding act. The committee on building reported much additional damage sustained by the city well during the late storm and were instructed to make the necessary repairs and report to the next meeting of the council.

If the stage company can make connection with the train at St. David they will probably bring the delayed mail tonight.

T E Dalton, of Phoenix, has been appointed principal of the Tombstone public schools.

One hundred and seventy-five thousand dollars will be expended on the new lot at El Paso.

The train this morning came up as far as St. David, where the bridge was unsafe for the train to cross, but four passengers came across it and were brought to Tombstone by private conveyance.

The storm of Tuesday night made and havoc all along the San Pedro river, which soon rivaled the Mississippi in appearance, the entire valley being flooded. All the bridges south of Charleston are carried away and three of the railroad bridges between Fairbank and Benson.

The house of Mr. Finer on the hill was struck by lightning on Tuesday but no material damage was done aside from terrifying its inmates.

### WEDNESDAY

Mr. Heyn still remains in Tombstone, being unable to return to the San Pedro custom house on account of high water.

Mr. Lewis Blomberg has moved his home, adjoining the residence of Mr. McNeil, on Fremont street to Turquoise, where it is understood he will start a saloon.

Ben James came up from Lewis Springs yesterday. He says not a board is left of the bridge at that place.

The office of the Southwestern Ice company has been moved to its former location on Fifth street.

Mr. Fly is improving rapidly. He has been around on crutches the past two days.

Riley Duncan, who is well known in Tombstone, is up from Socon.

"The Apache Country," a book by J. Ross Brown, has an illustration of the San Pedro river, with steamers going up and down. This doesn't seem as absurd now, after the recent cloudburst, as it did a few weeks ago.

Tom Haberstick was in from his ranch at Bygonne Springs today.

Mr. and Mrs. J A Rock'ellow returned to their ranch home this morning.

Cal Cox is in town from Ash Canyon. He reports the Ochoaville bridge as passable but unsafe.

### THURSDAY

The board of supervisors met this afternoon and have busied themselves listening to complaints of those who have been raised on their assessments.

Governor Wolfley went direct to Yuma after his departure from Tombstone last Saturday. He walked the ties for two miles to get to Benson after leaving the stage.

Tombstone exiles in the Huachuca think "there's no place like home," and sing dolefully, "there's one more river to cross."

Mr. A Grant returned on Saturday last from a visit to California. He states that the strike of natural gas near Santa Barbara has created a boom in real estate there.

Mrs. Howe will defer starting east until there is smoother sailing along the San Pedro.

James Duncan returned last night from a long trip through the eastern part of the county. He reports plenty of water everywhere. The Dos Cabezas mill is not running at present but considerable activity is noticeable on the other side of the mountains, in the Tevis district.

Up to date 363 persons have registered in Tombstone. Wilcox has turned in 72. Last year there were 732 votes cast in Tombstone and 1665 in the county.

### FRIDAY

Measrs Westworth and McKay of Fairbank attended the meeting of the Democratic county central committee last evening in Tombstone. Mr. Westworth reports the wires working in good order between Benson and Nogales.

Tempe raises onions weighing two and a half pounds. It takes but fifty to fill a barley sack.

The representative of the wholesale house of Siegfried & Brandenstein, Mr. Sebastian, is visiting in Tombstone. He stated to a representative of the Progression this morning that business in Tombstone was up to any town in the territory. He visits them all and is a good judge.

C Mason, road overseer for the Fairbank district, was instructed to make such repairs on roads in his district as necessary and as cheaply as possible.

The total assessment this year in Cochise county falls short of that of last year by \$177,538. There are in the county 5,229 head of cattle and the rate of valuation is fifty cents less per head than last year.

No east bound train arrived yesterday, owing to another break near Pantano on the S P.

A gentleman who attended the Democratic committee meeting last night said to a prominent Republican after the meeting that "it looked as though the county was running more to good rains and fat cattle this year than to politics." "Ye," replied the Republican, "its a two to one bet that one-third of the voters will feel so rated over the mining outlook and stage pro peets that they will forget to register."

### TUESDAY

Copper Output of C. & A. Smelter

The copper output of the C. & A. smelter for the month of July broke all records, amounting to 7,350,000 pounds. To turn out this amount of matter, 85,000 tons of ore were handled.

During the present week there arrived at the smelter the longest and heaviest train that ever pulled in there. It was comprised of 65 steel ore cars, each carrying 50 tons of ore. It came from the Bisbee mine.

The output of the Copper Queen smelter in July was approximately 12,000,000 pounds, so that the total output of the two smelters was 19,350,000 pounds. This is the largest combined production of any month since the smelters were started.
